

WELCOME TO THE PARTNERSHIPS VICTORIA HOME PAGE

Partnerships Victoria is a policy of the Victorian Government, giving effect to a commitment to optimise the level of infrastructure spending through a responsible use of the resources of both the public and private sectors. Value for money and the public interest are keynotes of the policy.

The *Partnerships Victoria* site assists project proponents, investors, bidders, citizens and government departments and agencies by providing guidance materials, information on projects and details of contacts in departments.

Through the new Business Network, the site aims to facilitate business interaction between parties seeking consortium partners and businesses otherwise interested in participating in *Partnerships Victoria* projects.

We are pleased to receive suggestions, via the '[Contact us](#)' button, of any ways in which the usefulness of this site may be enhanced.

A SNAPSHOT OF PARTNERSHIPS VICTORIA PROJECTS

There is a variety of *Partnerships Victoria* projects currently in the market place. This snapshot aims to provide you with some summary information. Contact details and links are also provided if you wish to obtain further information.

Projects can be viewed using the side menu. In the first instance they are displayed by name, alphabetically. The projects can also be sorted according to their status or their industry type.

'Status' shows the stage of development of a project. Projects pass through the stages of :

1. Expressions of Interest Invited
2. Expressions of Interest Closed
3. Project Brief Issued
4. Bidding Closed
5. Contract Let

Projects are allocated to an 'Industry Type' for the convenience of those who have expertise in a particular 'industry', such as 'Water', or 'Technology'. However some projects relate, in one way or another to a number of those 'industries' and are allocated only to one.

Please note that the primary source of information on projects is the sponsoring Department or Agency.
