### Data sources:

Published estimates for organizations classified in this group are compiled with the use of the statement P 5-01 „Annual statement of economic entities from selected productive sectors“ and the statement N 1-01a „Annual statement of non-profit institutions, housing cooperatives and selected institutions“, which are collected by the Czech Statistical Office pursuant to the Act no. 89/1995 Coll., on the State statistical service, as amended.

### Periodicity:

Quarterly

### Release date:

The release date is always by the end of the quarter following the end of the reference period (quarter). The publication dates are contained in the [release calendar](#), available on the website of the Ministry of Finance.

### Revisions:

Data are not revised.

### Methodological description:

The statistical reports are designed in relation to the profit/loss statements. Items are selected in such a structure to conform to the parameters according to the GFSM 2014 (Government Finance Statistics Manual 2014) prepared by the International Monetary Fund. For this reason, some operations were excluded: such as incomes from the sale of

securities and shares and securities sold shares, foreign exchange gains and losses, write-offs, creation and use of reserves and provisions, etc.

In comparison with the ESA, transactions with non-financial assets are not taken into account (profit/loss statement does not include information on non-financial assets and investment grants). Accounting depreciation of non-financial assets is used as a proxy for consumption of fixed capital.
