Partnership Fund: Useful contacts in Switzerland

The Partnership Fund supports **projects implemented in the framework of partnerships between Czech and Swiss bodies** such as cities, municipalities, regions, universities, schools, social partners and other non-profit organizations operating in the public interest. While grants for projects range between CHF 10'000 and 250'000, the applicant has to ensure a co-financing of at least 10 % of total eligible costs.

The applicants (i.e. the involved Czech bodies) can submit **applications to the National Coordination Unit (NCU)**. For details (e.g. on eligible bodies and costs), please consult the NCU's webpage (www.swiss-contribution.cz).

The projects shall be of a non-profit character and shall contribute to solve a specific development challenge. **An exchange of information and transfer of knowledge** between Czech and Swiss bodies in the relevant fields will contribute to reach this goal. The partnership shall demonstrate the commitment of both partners to the project they apply for.

The **partnerships** between Czech and Swiss bodies can be **existing or new ones**. If you wish to establish a new partnership with a Swiss institution, the following contacts could be useful:

For partnerships between municipalities, cities, cantons or regions

Swiss Section of the Council of European Municipalities and Regions

P.O. Box, CH-1002 Lausanne

Web: www.ascocre.ch – only in German and French; www.ccre.org/suisse_en.htm - with information on local and regional structures in Switzerland
